

The flight of a comet is like the flight of a whole lot of folks through this world.

A spectral flash—crash—a thud—cold forevermore.

A whole lot of us have been taking "comet" flights in our financial matters. Come easy—go easy.

Indications now are that there will be a change in our national business affairs—the natural retrenchment from a money spree.

How are you going to wake up—like a comet—or like a thoughtful, foresighted, thinking human?

Are you saving any money—are you looking ahead?

Why not start a savings account now? It's never too late to save money. Money will prove your best friend on earth when you really need it.

You can begin with as little as \$1.00. It's not the amount saved that counts—it's the HABIT OF THRIFT.
